

RADAR Accessible Toilets

[Back to results](#)

A RADAR Key (NKS Key) is skeleton key that opens more than 9,000 disabled toilets in the UK.

The RADAR Key Scheme or National Key Scheme (NKS) offers disabled people independent access to locked public toilets around the country.

Toilets fitted with RADAR or NKS locks can now be found in shopping centres, pubs, cafés, department stores, bus and train stations and many other locations in most parts of the country.

The Radar Key Scheme enables these disabled toilets to be locked to prevent vandalism and misuse, so you can be confident that these toilets will be available to meet your needs.
