

Berkshire Youth

[Back to results](#)

Berkshire Youth look to help and serve our young people through activities, training, providing opportunities for youth to volunteer and supporting clubs in our area.

Whether you are a young person seeking your voice to be heard; communities wanting to support young people as they reach for their potential as leaders of tomorrow or seeking to support vulnerable young people with their transition from childhood to adolescence; a business looking for ways to support the development of young people's health and well-being Berkshire Youth is excited to be working with you.

The Berkshire Youth activities programme has been developed by young people to encourage young people in Berkshire to become active citizens and get involved in events and activities offering life long opportunities.

The events and activities are all about having a go. Young people are encouraged to compete locally in anything from boxing to ten pin bowling and, if talent emerges, we can then provide a pathway into regional and national competitions.
