

## Slough Furniture Project

[Back to results](#)

An independent charity, that helps families, who are claiming state benefits and low incomes to be able to furnish their homes.

We can provide a range of furniture, clothing, and small electrical appliances at low cost. All of our furniture, soft furnishings, electrical appliances and toys comply with current safety legislation.

We also provide a Help4U service assisting people with disabilities or over the age of 65 with tasks that they can no longer manage safely in their homes. Tasks such as turning mattresses, moving furniture for ease of mobility or retrieving items from lofts or high cupboards etc. We also run a Gardening Project for the elderly or disabled who can no longer manage to tend to their gardens.
