

Epilepsy Society

[Back to results](#)

Epilepsy Society is the UK's leading provider of epilepsy services. Through our cutting edge research, awareness campaigns, information resources and expert care, we work for everyone affected by epilepsy in the UK.

Pioneering medical research - Epilepsy Society's globally renowned pioneering research is making great strides in finding the underlying causes of epilepsy and optimising seizure control.

A trusted source of support - We offer a comprehensive range of information resources and our helpline gives callers confidential emotional support.

Diagnosis and treatment - Our centre of medical excellence provides the latest diagnostic tests, assessments and medical treatment.

Specialist care services - We offer expert residential and nursing care and support for individuals with complex epilepsy.
